1

CHAPTER 1

Run the school

Admissions to report cards, on one record of every student.

NOTE

One register, not ten spreadsheets. Every module reads the same student, class and term.

✓ Student records

Admissions, profiles, guardians and class placement in one place.

✓ Online admissions

A branded application form; review, accept and enrol in a click.

✓ Attendance

Mark the register once; parents of absent pupils are told automatically.

✓ Clock-in kiosks

Scan in and out at a tablet or terminal, with arrival alerts to parents.

✓ Timetables

Periods, subjects and teachers, without clashes, ready to print.

✓ CBT exams

Tests in the browser, question banks and automatic marking.

✓ Results & report cards

Scores, grading and report cards parents can actually read.

✓ Curriculum & lesson notes

Schemes of work, weekly topics and coverage per class arm.

2

CHAPTER 2

Teach with AI

OrangeBook AI, grounded in your school's own records and lessons.

NOTE

It answers from your school's data and your teachers' notes, and every role only sees what it should.

✓ OrangeBook AI

Ask about fees, attendance or results in plain language, on the web or in chat.

✓ Study packs

Recaps and practice built from the teacher's own lesson notes.

✓ Live classroom

Video lessons with a shared whiteboard, built in.

✓ Lesson replay

Classes recorded and replayable, with retention controls.

✓ AI tutor & marking help

Reteach hard topics and draft feedback, for the teacher to approve.

✓ Interactive canvas

A shared canvas where the AI can sketch a concept on request.

CHAPTER 3

Fees & money

Invoices, wallets and online payments that reconcile themselves.

NOTE

Each payment lands against the right child and the right fee item. The bursar stops chasing bank alerts.

✓ Student wallets

A balance per student, so money is never “somewhere in the account”.

✓ Online payments

Parents pay by transfer or card, or straight from the chat.

✓ Auto-reconciliation

Payments matched to tuition, levies and bus in priority order.

✓ Invoices & fee structures

Itemised fees per class or per student, compulsory and optional.

✓ Defaulters & reminders

Who owes what, always, with polite reminders on a schedule.

✓ Payroll

Staff payroll with bank transfers and account checks.

CHAPTER 4

Campus life

Everything that happens between the bells.

NOTE

Turn on only what your school runs — every module is optional and shares the same records.

✓ Transport

Routes, driver check-ins and “bus on the way” alerts to parents.

✓ Cashless canteen

Scan a code, debit the student wallet. No cash, no queue.

✓ Library

Catalogue, copies, loans and returns without paper cards.

✓ Hostels

Hostels, rooms and bed allocations for boarding schools.

✓ Visitors & gate

Gate passes, QR check-in and a live register of who is on site.

✓ Inventory & assets

Stock across stores, suppliers, purchase orders and approvals.

✓ Alumni

Stay in touch with graduates and collect their stories.

✓ Live dashboards

Collections, attendance and performance by class, term or school.

CHAPTER 5

Parents & channels

The school, in the chat parents already use.

NOTE

No app for parents to install and no password to forget — WhatsApp and Telegram are enough.

✓ Parent portal

Attendance, results, fees and wallet for each child.

✓ Pay fees in chat

Parents settle fees from the conversation, reconciled automatically.

✓ Complaints & requests

Reported in chat, routed to the right staff and closed properly.

✓ Alerts on every channel

SMS, email, WhatsApp and Telegram for the moments that matter.

✓ Announcements

Reach the whole school, a class or just the owing parents at once.

CHAPTER 6

Platform & trust

Secure by default, and ready for more than one campus.

NOTE

Each school's data is kept apart from every other school's, with roles, MFA and an audit trail.

✓ Multi-campus ready

Strict per-school separation and features matched to your plan.

✓ Security & access

Role-based access, MFA and a sign-in log for every account.

✓ Reports & exports

Attendance, finance and performance, exported in seconds.

✓ Developer API & webhooks

Build on your own data with keys, a sandbox and signed webhooks.

✓ School website

A public school page with online admissions, out of the box.

✓ Quick to set up

Import by spreadsheet; we migrate records and train your staff.

CHAPTER 7

Every seat, every channel

One record of the school, shown to each person in the way their job needs — wherever they already are.

Students

AI tutor, timetable and results in their pocket.

Teachers

Registers, marking and lesson notes in minutes.

Staff

Payroll, stores and transport, handled quietly.

Parents

Results, fees and alerts on WhatsApp or Telegram.

Admin

Live dashboards and answers across every campus.

Proprietors

Collections and performance at a glance.

WhatsApp
For parents

What's my child's fee balance?

Replies with the balance from the school's records and a link to pay.

Telegram
For teachers

Mark attendance for my class

Lists the register so the teacher can mark who is absent.

Web app
For admin

Which classes are behind on fees?

Answers from the live invoices, class by class.

Run your whole school from one book.

Go live in a week. We migrate your records, train your staff and connect your WhatsApp and Telegram.
